Any quick glance at the news today shows a world in turmoil: Natural disasters are increasing... Christian persecution is at an all-time high... the world economy is at the breaking point... and the nation of Israel is under constant attack. Seeing these things, you can't help but wonder... Could this *really* be the end?

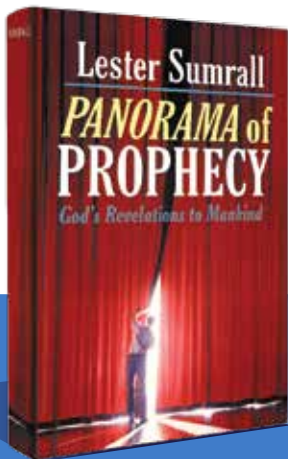

Let me first begin by saying that however hopeless the situation looks around the world, when Biblical prophecy is fulfilled, it actually reveals that God is in control. Take, for example, the amazing prophecy written hundreds of years before

Christ in Isaiah 53:5 about the sufferings He would endure...

These end-times prophecies being fulfilled are all part of God's plan. He's in control!

But He was wounded for our transgressions, He was bruised for our iniquities; the chastisement for our peace was upon him, and by His stripes we are healed.

Jesus was intimately acquainted with the Old Testament, so He knew when He read those words that they were talking about Him. Imagine living your entire life knowing the

fate that awaited you... to die a gruesome death on a cross.

Yet when that plan began to unfold, it was the fulfillment of prophecies like this one that gave Jesus the confidence in His Father's plan to say in Luke 22:42, "... *not My will, but Yours, be done.*"

Jesus wasn't consumed with worry about the crucifixion He would face. The visible evidence of fulfilled prophecy gave Him all the confidence He needed to trust in the Father's plan. ***And it can for us as well!***

When you and I see wars and rumors of wars... when we're

concerned with economic instability... and when Israel is attacked again and again... we can both weep *and* have hope at the same time. That's because these end-times prophecies being fulfilled are all part of God's plan. He's in control!

God isn't worried about the calamities we see happening today. He doesn't flinch in the face of terror. He's not anxious about the economy. And He knows about every single attack Israel faces and will continue to protect His people!

Are we living in the end times? The amazing fulfillment of prophecy we're seeing tells us

we quite possibly are. Yet that fulfillment of prophecy should give us confidence in God's plan and assurance that our involvement in His Kingdom work is a critical as ever.

So as the clock of history ticks closer and closer to the day when Jesus will return, let's continue to strive to take the message of salvation to the untold billions yet untold!

HOW TO FIND

PEACE IN PROPHECY

Everything changed for the Jewish people in the year A.D. 70. Jerusalem, the religious and political center of Jewish life, was sacked by the Romans and completely laid waste. Its inhabitants, at least those who weren't killed, were scattered throughout the world. Jewish life was over as they knew it.

But in 1948, everything changed once again. After nearly 1,900 years dispersed throughout the world, the Jewish people were again given a land in which to live, fulfilling Ezekiel 36:24,

which says, "For I will take you from among the nations, gather you out of all countries, and bring you into your own land." Few people ever expected Israel to come alive again, but prophecy was fulfilled and proven true!

It's because of prophetic fulfillments like this one that we trust the fullness of God's Word. So instead of letting the state of the world today make you anxious, trust in the hope and peace the Bible promises will come for those who are in Christ!

"Trust in the hope and peace the Bible promises will come for those who are in Christ!"

From Pete Sumrall to You

Dear Friend,

It was Dr. George Sweeting who once estimated that one out of every four verses in the Bible—that's 25 percent—was predictive prophecy. Throughout the Old Testament, the first or second coming of Jesus Christ is mentioned over 1,800 times. And in the New Testament, there are 300 references to the second coming of Christ.

Not only that, but Jesus' fulfillment of every single prophecy of His first coming was extremely unlikely. It's been estimated that the odds of one person fulfilling even eight of the major prophecies about the Messiah is about 1 in 100,000 trillion. That's statistically impossible!

This is why prophecy is so important to our faith. The accuracy of Biblical prophecy outweighs that of any other faith. It absolutely confirms the Bible is true! So when we struggle and toil in this world, we take hope in the promises that are still to be fulfilled.

One of the prophecies that has personally given me so much comfort in my life is Revelation 21:4, which says,

“And God will wipe away every tear from their eyes; there shall be no more death, nor sorrow, nor crying. There shall be no more pain, for the former things have passed away.”

But the truth is, many people are going to miss out on this unless we reach them. That's why your renewed support of LeSEA here at the beginning of the new year is just so important. With your help, we'll extend the lifesaving hand of the Gospel to the untold billions who are without hope every day through avenues like *Spread the Word* and our 24-hour *Prayerline*.

So thank you for your prayers and renewed support to help make this outreach possible. I'm grateful!

Yours for the untold billions yet untold,

Pete Sumrall
